ANGIPLAST
Private Limited

ABOUT THE COMPANY:

Established in 1994, **ANGIPLAST** Private Limited is an innovative Company having ultra-modern facilities for manufacturing Medical Devices. The Company is engaged in manufacturing entire range of products for Infusion Therapy, Transfusion Therapy, Dialysis, Urology, Anaesthesia, Gastroenterology, Surgery, Catheters, Tubes, other Medical Devices and Components.

Equipped with Ultra-Modern Plant, Infrastructure and skilled Manpower. The Company's forte lies in Contract Manufacturing. Presently the Company produces products for several companies under their brand. However, the Company also markets products in its own brand 'ANGELTOUCH' and has registered its brand/products in its own name in several countries.

The Company has established a reputation as a quality supplier of products in the Medical Device field. The products of the Company enjoy a good market response in India as well as overseas.

MISSION STATEMENT

- 1) The Company shall aim to be one of the prime suppliers with major thrust on exports in the field of medical devices
- 2) The Company shall provide customer satisfaction through quality products at competitive prices

PRODUCTION FACILITY

Committed to practice the highest quality standards, The company has set-up an integrated plant having in-house facilities for Injection Molding, Assembly, Sterilization and Testing. Assemblies are done in clean-room conditions in air-conditioned halls under constant vigilance of its trained managerial and technical personnel.

The Quality Control Laboratory has been certified to perform biological, chemical, microbiological, physical, sterility and toxicity tests. The Laboratory is equipped with state-of-the-art technology and staffed by qualified trained personnel.

QUALITY ASSURANCE AND CERTIFICATION

Quality Control System at ANGIPLAST encompasses a systematic, fully documented, comprehensive and exhaustive series of bacteriological, chemical physical and visual tests; and inspections at each pertinent stage in production cycle. This involves constant surveillance of raw-materials, intensive in-process control of all manufactured parts, sub-assemblies and final inspection and testing of finished products.

The Company's plant has GMP (Good Manufacturing Practices) Certification. Under aegis of ISO (International Organization for Standardization), we have successfully installed, implemented and updated Quality Management System. Accredited by DNV (Det Norske Veritas, The Netherlands) for ISO 13485 certifications and all products are available with CE marketing as per MDD93/42/EEC, which qualifies distribution and sale in EEC (European Economic Community)

EXPORT

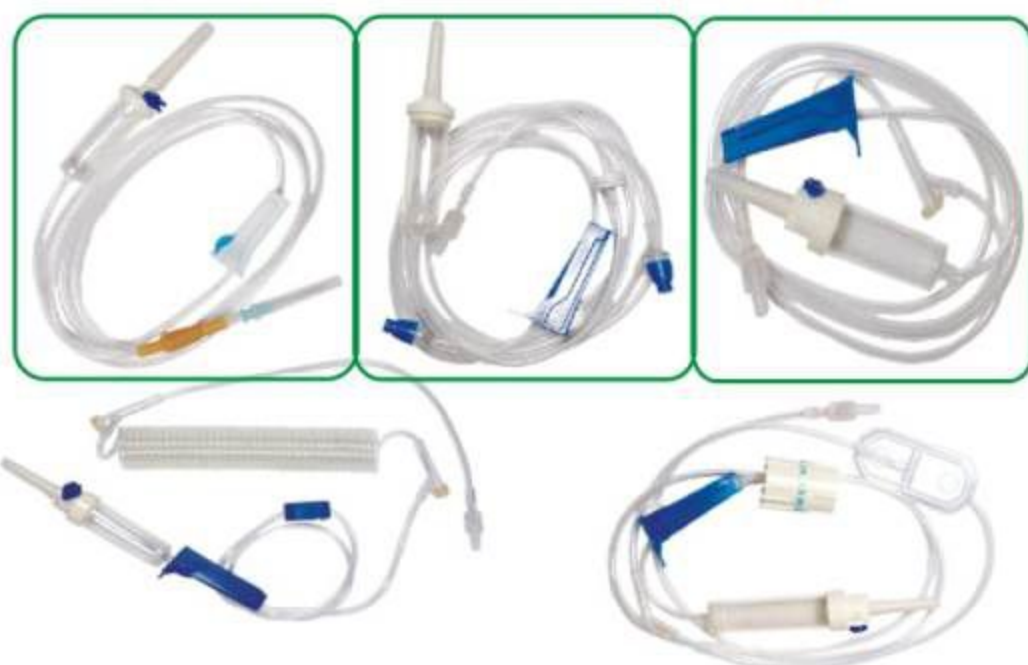

More than 80% of production is exported throughout the world. Many countries have our product in their registration for quality supplies. The Company has USFDA registration for its products IV Set and Urine Bag. Export inquiries are welcome for current range as well as for new product development and components.

EXPORT HOUSE

Intravenous Infusion Sets (IV Sets)

Available Models:

- * Economy
- * Standard & Premium
- * Adult & Paediatric
- * Needlefree
- * PVC Free
- * DEHP Free
- * For Filter Administration
- * For Paclitaxel (oncology)
- * For Secondary Medication
- * Dial Type (Precision Flow)
- * For Infusion Pump
- * For Photosensitive Drugs (Light Proof Drugs)
- * Veterinary Infusion Set

Model Nos:

Options Available:

- * Vented or Non-Vented
- * Latex/Latex Free/Needlefree Injection Sites
- * Injection Sites: Tube/Flash Bulb/'Y'
- * Flow Regulator: Economy/Premium/Dial type
- * With or without Needle
- * Luer Tip/Luer Lock/Rotating Luer Lock
- * Poly Pack/Blister Pack/Ribbon Pack
- * Inner Bag/Inner Box
- * Different length and sizes
- * Custom made

Burette Set (Measured Volume Set)

Options Available:

- * For Infusion/Transfusion
- * 100ml/110ml/150ml
- * Vented/Non-Vented
- * With or Without Needle
- * Floating Valve
- * Slide Clamp/Pinch Clamp
- * Flash Bulb/Y Site/Needlefree injection sites
- * Latex/ Latex Free

IV Catheter (IV Cannula)

Available Models:

- * With Wing, with Injection Port
- * With Wing, without Injection Port
- * Witout Wing, without Injection Port

Available Sizes:

Size	Colour	Catheter Length (ID/OD)	
14G	Orange	1.7 MM	2.1 MM
16G	Grey	1.3 MM	1.7 MM
17G	White	1.1 MM	1.5 MM
18G	Green	0.9 MM	1.3 MM
20G	Pink	0.8MM	1.1 MM
22G	Blue	0.6 MM	0.9 MM
24G	Yellow	0.5 MM	0.7 MM

Cannula:

Japanese Stainless Steel Needle
Triple point Needle for painless insertion

Catheter:

Thin Wall PTFE/FEP Catheter with
X-Ray opaque line

Packing:

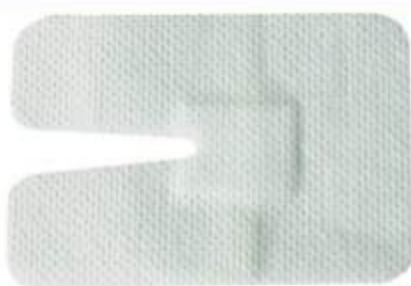

Unit Pack: Blister Pack, Inner Box of 100 pcs,
Outer Box of 1000 pcs

Model Nos:

IT-31	IT-32	IT-33
-------	-------	-------

Safety Cannula (IT-50)

- * Preventive from Needle stick injury
- * Available with or without Injection Port
- * Available with or without wing

IV Cannula Fixator (IT-51)

- * Available in PU / Non-Woven

3Way Stopcock (IT-30)

Specifications:

- * Manufactured from transparent Polycarbonate/PE
- * With molded Luer Lock
- * Available in Non-Lipid Resistance / Lipid Resistance
- * Unit Pack in Blister, Inner Box of 50 pcs, Outer Box of 1000 pcs

Extension Set / Pressure Monitoring Line

Available Models:

- * Extension Set with Precision Flow Controller
- * High Pressure Monitoring Line with M/F or M/M Connectors
- * Extension Set with High Capacity with M/F or M/M Connectors
- * Extension Set with 3Way Stopcock
- * Extension Set - Mini Volume with T Connector
- * Bifurcate/Trifurcate Extension Set

Options Available:

- * PVC/DEHP Free
- * Colour Coding
- * Various sizes
- * Pressure Resistant tubing
- * Spiral Tubing
- * Custom made

Model Nos:

--------	--------

Blood Line for Haemodialysis

- * Consists of 2 parts- Arterial and Venous Line
- * Blood Tubing set has been specially designed for the patient to connect external system which extracts patient's blood to the dialyzer and then returns patient's blood from the dialyzer

Options Available:

- * Post-Pump or Pre-Pump
- * Transducer
- * Pillow
- * Drain Bag
- * Custom-made options available for various dialysis machines

AV Fistula Needle (TT-30AV)

- * AV Fistula Needle allows Arterial and Venous access for patient's undergoing haemodialysis
- * Available in single pack (A/V) or twin pack (A&V)
- * Available sizes: 15G, 16G & 17G

Drain Bag Empty System (CAPD Fluid Drain Bag Set) (FB-01)

- * 3L Fluid drain bag system

Peritoneal Dialysis Set (IT-29)

- * Specially designed 'Y' shape transfusion set for administering dialysis solutions
- * Provided with 2 upper control clamps and 2 lower control clamps
- * Proximal end is provided with suitbale adaptor for easy connection to catheter unit
- * Kink resistant tubing

Scalp Vein Set (IT-28)

Available Sizes:

19G	20G	21G	22G	23G	24G	25G
-----	-----	-----	-----	-----	-----	-----

Enteral Feeding Set Enteral Feeding Bag

Available Models:

- * Gravity Feeding Bag - Economy Model
- * Gravity Feeding Bag - Premium Model
- * Pump System - Economy Model
- * Pump System - Premium Model

Options Available

- * Blister Pack/Inner Box
- * Custom-made

Model Nos:

EFT-01	GFB-01	GFB-02	GFB-01	GFB-02

Urine Collection Bags

Available Models:

- * Urine Bag without Outlet & NRV
- * Urine Bag with Top Outlet
- * Urine Bag with Bottom Push-Pull Valve
- * Urine Bag with Bottom 'T' Valve
- * Urine Bag with Top Outlet & Hanging String
- * Urine Bag with Bottom Outlet & Hanging String
- * Urine Bag with Top Outlet & Molded Hanger
- * Urine Bag with Bottom T Valve, Sampling Port, Universal Hanger with Bottom Lock
- * Urine Bag with Drip Chamber, Filter, Needlefree Sampling Port, Re-inforced Double Hook Hanger, T Valve

Options Available:

- * 500/1000/1500/2000ml
- * Sterile/Non-Sterile
- * Poly Pack/Blister Pack
- * Inner Bag/Inner Box
- * Custom Made

Model Nos:

UR-02	UR-2A	UR-03	UR-3A	UR-10	UR-15
UR-16	UR-17	UR-18	UR-19	UR-20	UR-21

Urinometer

Available Models:

- * 500ml Single Chamber System with Drainage Bag
- * 400ml Three Chamber System with Drainage Bag
- * 250ml / 350ml with Drainage Bag

Options Available:

- * Drainage Bags available in various capacity
- * Sterile/Non-Sterile
- * Blister Pack/Ribbon Pack
- * Inner Bag/Inner Box
- * Custom made

Model Nos:

UR-09	UR-12	UR-13
-------	-------	-------

Urine Leg Bag

Available Models:

- * Bag with Bottom T Valve with Straps
- * Bag with Push-Pull Valve with Straps
- * Bag with Twist Valve with Straps
- * Bag with Extension Tubing
- * Bag with Non-Woven Fabric

Model Nos:

UR-25	UR-26	UR-27
UR-31	UR-32	UR-33

Options Available:

- * 500/600/750/900/1000ml
- * Sterile/Non-Sterile
- * Poly Pack/Blister Pack
- * Inner Bag/Inner Box
- * Custom made

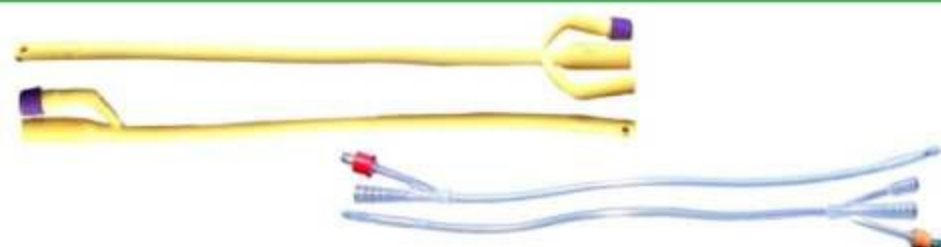

'Y' Junction Set (TUR) (UR-05)

- * Designed for continuous irrigation during trans urethral resection
- * Y shaped connector facilitates alternative changes of solutions
- * Slide Control Clamp aids quick changes of bottle
- * Proximal end fitted with latex tube
- * Poly pack/Blister Pack

Paediatric Urine Bag 100ml (UR-04)

- * Sterile/Non-Sterile
- * Poly Pack/Blister Pack
- * Inner Bag/Inner Box

Foley Catheter (Urological Catheter) (UR-07)

Available Models:

- * Latex Foley Catheter (Silicon Coated) 2Way/3Way
- * 100% Silicon Foley Catheter 2Way/3Way
- * Adult & Child Sizes

Male External Catheter (UR-08) (Male Condom Catheter)

- * Available in 25/30/35/40MM (Small/Medium/Large/Extra Large)
- * Manufactured from pure Latex
- * Provide with self adhesive coated strip

Wound Drainage System (SR-03 & SR-04)

- * Designed for low/negative pressure
- * Bellow unit with connectors
- * Connecting tube with clamp and Y connector
- * Spare Redon Drain (perforated) catheter
- * Curved Needle with matching catheter
- * Available sizes: 800/400/250/50ml

Silicon Wound Drainage System (SR-08)

- * 100% Silicon and Latex Free
- * Unit Consists:
 - Silicon Bellow
 - Silicon Perforated Catheter
 - Stainless Steel Trocar
- * Available sizes: 100/200/400ml

Yankaur Suction Set (SR-05)

- * It is suitable for convenient removal of secretion of blood and debris etc.
- * Complete set is provided with Suction Tip mounted on 2 mtrs long ribbed tube provided with universal connectors at both ends.
- * Yankaur Handle Vented, Plain Tip

Suction Tubing with Connectors (AS-12)

- * Non-Conductive
- * Universal connectors at both ends
- * 2.5 mtrs long tube
- * Available in various length

Abdominal Drain Kit (SR-06)

- * Soft drainage Catheter 45cm long
- * Collection Bag of 2000ml
- * Catheter Sizes: 16/20/24/28/32/36/40FG

Water Sealed Drainage Bag (MS-10)

- * For collection of drainage fluid from thoracic and abdominal cavity
- * Moulded Hanger
- * PVC drainage bag with 900ml & 2000ml

Thoracic Catheter with Trocar (SR-02)

- * Suitable for post operative drainage after cardio thoracic and thoracic surgery
- * Thoracic Catheter with Trocar designed for quick non-operative pleural and chest drainage for the relief of chest conditions such as tensions, pneumothorax
- * Various sizes available

Karman Cannula (MS-04)

- * Designed for menstrual termination of pregnancy
- * Suitable for use with MTP Syringe or any model of suction machine
- * Sizes: 4,5,6,7,8
- * With or without Adaptor

Blood Donor Set (MS-01)

- * Sharp bottle needle for better penetration of glass bottles
- * Airway needle with Filter

Umbilical Cord Clamp (MS-06 & MS-07)

- * Available with re-opening facility
- * Poly Pack/Blister Pack
- * Inner Bag/Inner Box

Heat Moisture Exchange Filter (AS-22)

It is used in mechanically ventilated patients intended to help prevent complications due to drying of the respiratory mucosa, such as mucus plugging and endotracheal tube occlusion. HMEF is one type of commercial humidification system.

Gas Line Filter (AS-28)

It is used for removal of bacteria, scale and other contaminants from oxygen and other medical gases.

Anaesthesia Face Mask (AS-26)

- * Transparent, cushioned, flexible 22F ISO connection
- * Air filled cushion provide safety and comfortable use
- * Suitable for use in respiratory care of anaesthesia and resuscitator
- * Available sizes: Adult, Child, Infant & Neonatal.

Lung Exerciser (Spirometer) (AS-20)

- * Connecting tube with 12mm OD connector and mouth piece
- * Flow rates 600ml/sec, 900ml/sec and 1200ml/sc.
- * Disassembled parts for cleaning and disinfection
- * Available with filter
- * Individually packed in a box

Laryngeal Mask Airway (AS-27)

- * Cuff of the mask and its tip is automatically engineered to provide an optimal seal within the hypopharynx
- * Clear transparent tube enable to detect any airway obstruction.
- * Standard 15mm connector facilitates easy connection to the anaesthesia circuit.
- * Pilot balloon for easy inflation and deflation of cuff.
- * Available sizes: 1.0 to 5.0

Ambu Bag (Resuscitator) (AS-30)

- * It is commonly used to provide positive pressure ventilation to patients who are not breathing.
- * Available sizes: Adult & Child
- * Ambu Bags (Resuscitator Bags) are available in PVC & Silicon

Bain Circuit (AS-23)

- * Bain Circuit is available with 22mm corrugated tube, 1.6mtr. Long with expiratory valve, 2 ltr. Antistatic Re-Breathing Bag
- * Available Sizes: Adult & Child

Ventilator Circuit (AS-24)

- * Available Sizes: Adult, Child & Infant

Expandable Ventilator Circuit (AS-24B)

- * Available Sizes: Adult, Child & Infant

Double Swivel Mount (AS-29)

Double Swivel Mount connector with suction port and cap provides better flexibility, easy accessibility and provide comfort to patient during suction. It is also known as Catheter T Mount.

Breathing Circuit with Single & Double Water Trap (AS-25)

- * Made of high quality medical grade plastic with 22M-22F straight connectors
- * Transparent for easy monitoring of water build-up and blockages.
- * Corrugated, flexible and light weight 1.6mtr tubing with single and double re-sealable water trap
- * Y piece with monitoring port
- * Available Sizes: Adult & Child

Guedel Airways (AS-06)

- * Available Sizes: 000,00,0,1,2,3,4,5
- * Colour coded

Nasopharyngeal Airway (AS-21)

- * It is designed to be inserted into the nasal passageway to secure an open airway
- * Specially designed bevel tip reduces mucosal trauma during insertion.
- * Available sizes 2.5 to 8.5

Oxygen Mask (AS-05)

- * Moulded Face Mask with clip, adjustable elastic strap
- * 2 meter long tube
- * Proximal end fitted with soft funnel shape connector
- * Adult/Paediatric/Infant

Options Available:

- * Available **Re-breathable Mask with Bag** (Medium/High Concentration)
- * Sterile / Non-Sterile
- * Poly Pack / Blister Pack
- * Inner Bag / Inner Box

Nebulizer Mask (AS-11)

- * Nebulizer Chamber capacity 7cc
- * Face Mask with clip
- * Adjustable elastic strap
- * 2 meter long tube
- * Adult/Paediatric
- * Sterile or Non-Sterile
- * Poly Pack or Blister Pack
- * Inner Bag or Inner Box

Nasal Oxygen Cannula (AS-04)

- * Also known as Twin Bore Nasal Oxygen Set
- * Smoothly finished and adjustable nasal tips
- * Twin prong nasal tips
- * 2 meter long tube
- * Adult/Paediatric
- * Available in Paediatric and Adult sizes

Adjustable Ventury Mask (AS-14)

- * Adjustable nose clip
- * Adaptor for high humidity
- * 2 meter long tube
- * Colour coded Kit
- * Available in Paediatric and Adult sizes

'T' piece type Nebulizer Kit Model AS-31

Tracheostomy Tubes (Cuffed & Plain) (AS-09 & 10)

- * Available Sizes:
5.0 to 10 for Cuffed & 4.0 to 10 for Plain

Endotracheal Tubes (Cuffed & Plain) Model AS-07 & 08: Re-Inforced Endotracheal Tubes (Cuffed & Plain) Model AS-7a & 8a:

- * Available Sizes:
4.0 to 10 for Cuffed & 3.0 to 10 for Plain

Infant Mucus Extractor Model MS-02 & MS-11:

- Specially designed device for aspiration of mucus in newly born babies.
- * **Available with Filter also.**
- * 25ml Cylinder

Catheters & Tubes

Gastroenterology:

- * Infant Feeding Tube (GE-01)
- * Ryle's Tube (GE-02)
- * Duodenal Ryle's Tube (GE-2A)
- * Levin's Tube (GE-03)
- * Stomach Tube (GE-04)
- * Kher 'T' Tube (GE-07)

Anaesthesia:

- * Suction Catheter (AS-01)
- * Suction Catheter with Thumb Control (AS-02)
- * Nasal Oxygen Catheter (AS-03)
- * Oxygen Connecting Tube (AS-13)

Urology:

- * Urethral Catheter (UR-01)
- * Nelaton Catheter (UR-01)

Surgery:

- * Thoracic Catheter (SR-01)
- * Redon Drain Catheter (SR-07)

General:

- * Umbilical Catheter (MS-05)
- * Rectal Tube (MS-09)

Options Available:

- * Various sizes and length
- * With or without XRO Line
- * Poly Pack / Blister Pack
- * Inner Bag / Inner Box

Ear Loop Face Masks (MS-17)

- * Latex Free Round Lycra Elastic 7.5" : Elongation 1:2
- * Ear Loop mask is made of spun bond PP Fabrics
- * Inside elastic sealing
- * Mask Size : 175 mm X 95 mm
- * Malleable PVC/PE Coated Aluminum Nose-Clip Prevents Air Leakage
- * High Bacteria / Particle / Viral Filtration Levels (> 95% , > 98%)
- * Available in 1 / 2 / 3 / 4 ply.

Tie Face Masks (MS-18)

- * It is made of spun bond PP Fabrics
- * It is made with ultrasonic sealing technology
- * Tie bands are strong , 40 GSM which prevents tie snapping
- * Mask Size: 175 mm x 95 mm
- * It comes with malleable PVC/PE coated aluminum nose-clip
- * Available in 1 / 2 / 3 / 4 ply.

N-95 Face Masks / Particulate Respirator (MS-21)

- * Provide protection include contaminants such as dusts, fumes, mists and smoke.
- * Filter Efficiency > 95% against 0.26 micron NaCl Aerosol airflow at 85 Liter/Minute.
- * Average Maximum % Leakage of 2.5% Inhalation Resistance average of 9.4 mm H2O
- * Exhalation Resistance average of 12.6 mm H2O
- * 100% ultrasonically machine manufactured without manual intervention
- * Soft twin wired 8.5 mm aluminum nose clip molds easily on the nose to prevent leakage, mist and perspiration

Visor Masks (MS-20)

- * 4-Ply Mask with Anti Fog Optical Visor
- * Application mainly for HIV Patients
- * Black Fabric Strip over Nose-clip deflect light glare
- * Long and soft PU Foam Strip under nose clip for user comfort and reduce fogging. Extra long nose-clip.
- * 90 cm Horizontal Tie Bands accommodates all head sizes and hair lengths
- * Malleable PVC coated aluminum nose-clip prevents air leakage
- * High Bacteria Filtration (4-Ply: BFE>99%)
- * Low Breathing Resistance (4-Ply: Delta P < 49,0 Pa)

Activated Carbon Masks / Anti-Pollution Masks (MS-19)

- * Ideal Anti Pollution Mask for commuters
- * Highly Porous 45 Gsm Active Carbon layer for excellent absorbency
- * 4-Ply construction with Bacteria and Particle Filtration Efficiency > 99%
- * Removes bad odors and organic vaporous
- * Highly absorbent for dust and particles, yet non toxic

Surgeon's Cap (MS-22)

- * Available in Tie - On & Elastic type
- * Used in food, hospitals and nursing homes to prevent hair and dandruff fall
- * Available in 25/30/40 Gsm medical grade fabric which prevents escape of microorganisms.
- * Available colors in Blue/Green/White

Bouffant Cap (MS-23)

- * Unisex design and universal size fits all
- * Comfortable double string elastic cover full circumference of cap
- * Avoids escape of hair and dandruff
- * Available in 18" / 21" / 24"

Shoe Cover (PE/Non-Woven) (MS-25)

- * Mainly made up of abrasion resistant material (LDPE)/ 25-40 Gsm Medical Grade PP Spun-bond
- * Non Woven shoe cover do not slip on wet floors
- * Soft double string elastic at ankle for snug and secure fit.
- * Prevent dust and contamination.
- * Size : Universal length of 415 mm
- * Available ankle heights 6" / 7" / 8"

SMS Gowns (MS-26)

- * Provides highest possible protection level
- * It is fluid and alcohol repellent .
- * Absorbent, non-absorbent or a combination of both.
- * Ultrasonic Stitching
- * Universal size of 130 x 150 cm
- * Available in different sizes also

Laminated Gown / Apron / Patient Gown (MS-27)

- * Made up of Laminated PP Spun bond / LDPE
- * It mainly protects from splashes, Fluid Repellent
- * Ultrasonic Stitching
- * Different Styles & GSM available as per requirement
- * Universal size of 130 x 150 cm
- * Available in different sizes also

Surgical Gloves (SG-01 & SG-02)

- * Available with Powder & Powder-free
- * Available sizes: 6, 6.5, 7, 7.5, 8 & 8.5
- * Inner Box of 50 pairs & Outer Box of 500 pairs

Syringes (with or without Needle)

- * Sharp and clear graduation marks for precise dosage accuracy
- * Available with or without Needle
- * Blister and Inner Box Packing
- * Available Sizes: 1ml Insulin Syringe, 2ml, 3ml, 5ml, 10ml, 20ml, 50ml

Ostomy Products (Colostomy Bags)

Available Models:

- * Colostomy Bag - Economy model
- * Colostomy Bag One Piece System Closed
- * Colostomy Bag One Piece System Drainable with Clip
- * Colostomy Bag Two Piece System Closed
- * Colostomy Bag Two Piece System Drainable with Clip

Urostomy Bags:

Available Models:

- * Urostomy Bag One Piece System
- * Urostomy Bag Two Piece System

Options Available:

- * EVA / PE Film (odor free)
- * Spun Laced Non-Woven Fabric
- * Velcro / Clip
- * Carbon Filter
- * Available in various cut-sizes
- * Blister Pack / Inner Box

Flange for Two Piece Colostomy/Urostomy Bags

COMPONENTS

Custom made available as per customer requirement

Contract Manufacturing & Service

The Company specializes in original equipments as well as Contract Manufacturing (OEM). We manufacture for several companies products in their brand name to be marketed in India as well as abroad. We solicit inquiries related to OEM business.

Product Development

We invite inquiries for products/components which are not in our current range. On receipt of samples / drawing and subject to minimum quantity, we shall develop products specially for customer's specific requirements.

CERTIFICADOS: ISO 13485, CE, USFDA, GMP, GLP, EXPORT HOUSE, TRADEMARK

ANGIPLAST Private Limited

Since 1994...

Manufacturer and Exporter of Medical Devices / Disposables

Highlights:

- * Established in 1994
- * In-House facilities for Injection Molding, Class 10000 assembly
- * EO Sterilization
- * Certified Laboratory (GLP) for Chemical, Sterility, Pyrogen, Toxicity and Micro-Biological tests
- * GMP certified manufacturing plant
- * ISO 13485 certification
- * CE marking products
- * More than 30 products registered with USFDA
- * USFDA 510(k) registration
- * Government of India certified Export House
- * 300+ Overseas distributors / MOH registrations
- * Export more than 80% of production
- * Customized production
- * OEM/Contract Manufacturing
- * Supply of components for medical devices
